**Miami County Community Needs Assessment Kickoff-AARP Age
Friendly Miami County**

As announced on March 14, 2023 the Miami County Community Needs Assessment is now underway. Per Miami County's commitment to becoming an AARP Age Friendly Community, a portion of this assessment is dedicated to seeking input and suggestions from older adults living in Miami County. Participation is requested through the completion of a community survey and potentially individual interviews or focus group participation if selected to do so. Those who would like to complete the survey can do so at the following link:

This project was made possible in part, by a grant from the DMH-Dayton Inc. fund of the Dayton Foundation on behalf of the MVRPC Institute for Livable and Equitable Communities. The Commissioners would like to thank the Dayton Foundation and the Miami Valley Regional Planning Commission for their generous contributions to this effort.
